Diode in Dentistry

FOUNDATION COURSE
7 HOURS VERIFIABLE CPD

Dr Mark Cronshaw
B.Sc(Hons) BDS LDS RCS (Eng), MFHom (Dent)

Dr Mark Cronshaw is a private practitioner in Cowes, Isle of Wight. He qualified from Guys Hospital in 1984 and is a long established and highly experienced postgraduate trainer.

Following his move into an exclusively private practice in 2002, Dr Cronshaw has developed an interest in high tech dentistry, aesthetic and cosmetic dentistry, minimally invasive techniques and holistic care. Having studied in the USA, Mark is an approved international trainer for Biolase and the World Class Laser Institute and he has lectured extensively both in the UK and internationally. His practice in Cowes is one of the most modern and best equipped practices in the UK and is a showcase for state of the art equipment including the latest version of the CEREC, digital imaging and video microscopy. Dr Cronshaw is a Fellow of the World Class Laser Institute and also a Fellow of the International Academy for Dento-Facial Esthetics.

This detailed one day course provides all the information you need to safely and effectively integrate a diode laser into your clinical practice. On completion of this course you are eligible to take the examination to become an associate fellow of the World Class Laser Institute.

Learning Objectives

• Core knowledge on the safe application of dental lasers
• Update your knowledge on the latest research in laser dentistry
• Study the latest techniques of the use of the diode laser in clinical dentistry
• Gain hands-on tutored experience

Course Schedule:

09:00  Introduction to lasers: Why is the diode an invaluable aid to clinical dentistry?
09:30  Laser assisted periodontal therapy: New answers to an old problem
10:30  Laser physics health & safety
11:00  Break
11:30  Surgical applications of the diode: Gingivectomy, frenectomy in and troughing
12:00  What else can it do? Low level laser therapy, laser bleaching and endodontics
13:00  Lunch
14:00  Hands-on: Try all the applications on pig jaws
15:30  Waterlase MD: Introducing the first all-tissue laser
16:00  WCLI examination (optional)

Time: 09:00 - 17:00  Only £210+VAT

A Practical Introduction to Lasers in Dentistry

2 DAY INTENSIVE COURSE
14 HOURS VERIFIABLE CPD

Dr Mark Cronshaw
B.Sc(Hons) BDS LDS RCS (Eng), MFHom (Dent)

I was genuinely impressed by the content, context and delivery of the material. It was very well paced and left one with enough knowledge to be able to start an impressive range of clinical procedures.
Keith Tierney, BDS

This detailed hands-on course covers everything you need to know to safely and effectively use either a diode or a YSGG laser. On completion of this intensive training you will be eligible to take the examination to obtain certification as an Associate Fellow of the World Class Laser Institute.

Learning Objectives

• Core knowledge on the safe clinical application of dental lasers
• Update your clinical knowledge on the latest research in laser dentistry
• Study the latest techniques and methods of implementing different types of lasers in dentistry
• Gain hands-on tutored experience of both soft and hard tissue laser

Laser Perio & Dermatology

NEW FOR 2013

2 DAY MASTERCLASS
14 HOURS VERIFIABLE CPD

Speakers: Dr Mark Cronshaw,
Dr Larry Nurin & Dr Marie Pilar Martin

Henry Schein Dental are delighted to announce a new two day course featuring Dr Cronshaw, Dr Nurin and Dr Martin. Dr Nurin is a specialist periodontist with his own practice in Maryland USA. Dr Nurin has an international reputation as being one of the foremost authorities worldwide in the field of laser periodontology. With over twenty years experience of laser use in periodontology, learn from one of the world’s leading laser periodontists all the latest techniques and methods.

Dr Martin specialises in the dermatological applications of oral lasers as well as being an authority on the use of oral lasers to enhance facial aesthetics. Dr Martin has over twenty years experience of oral laser use and is the leading world authority on the use of oral lasers for these highly innovative dermatological techniques.

During this course you will learn about scar removal, the management of facial blemishes including moles as well as laser resurfacing techniques that will add a whole new dimension to your laser treatment repertoire. This two day course features the leading exponents of laser periodontology and laser dermatology and is definitely not to be missed.

Time: 09:00 - 17:00
Only £450+VAT
